

## SPRING-LOADED EMERGENCY VENT OPTION 321

This low profile vent cap is designed for use on all Pryco fuel tanks. It is available in two to six inch sizes to accommodate the full range of emergency vent openings. The spring-loaded design provides for horizontal or vertical installation positioning. Vent units are calibrated to an 8-oz opening internal tank pressure.

OPTION	SIZE	VENTING
321A	2" NPT	14,200 CF/H
321B	3" NPT	43,000 CF/H
321C	4" NPT	95,000 CF/H
321D	6" NPT	104,000 CF/H
